You use and love Arbonne’s superior, botanically based products — and it shows! Now that you’ve experienced the Arbonne Advantage, it’s time to share it with others.

**When You’re “In the Know,” It Shows**

Testimonials, such as word-of-mouth, are the best form of advertising. We call this becoming a product of the product. It’s for this reason that Arbonne offers new Independent Consultants several opportunities in their Start Month, plus the following month, to purchase products at special savings. This way, you can experience the products for yourself, use them for demonstrations, or sell them for a generous retail commission. The natural act of sharing what you love builds your Arbonne business through more product sales.

Sharing your personal experience about the Arbonne product lines is the foundation for success in your business. The more you use Arbonne products, the more your confidence in the company will grow as you see and feel long-term results.

**Earn an Income**

While you remain active in the business and maintain your Consultant rank:

- Enjoy a 35% discount off the Suggested Retail Price (SRP) on all products.
- Receive a 35% retail commission on all orders you sell to Clients at SRP.
- Receive a 15% commission on the Retail Volume (RV), excluding Right Start Value Packs (RSVPs), placed by your personally sponsored Preferred Clients.

*To maintain Consultant rank, you must have a minimum of 1,200 Personal Retail Volume (PRV) in each rolling 12-month period to remain a Consultant. Please see the Arbonne SuccessPlan for full details.*

Sharing your personal experience about the Arbonne product lines is the foundation for success in your business.

Step 2
Set Up Your Office

Open for Business
An organized workspace in your home will help your business grow. Consider the following business needs as you organize your workspace.

• Order personalized business-building tools, including your business cards and stationery, at The Place (look for the coupon code found in your Starter Kit on the inside of the business folder).

• Establish a separate bank account and perhaps a separate credit card account — consider the Arbonne Success MasterCard®. This will make it easy to track your Arbonne orders and business expenses once tax time rolls around.

• Set up your voice mail to reflect your new business. Consider establishing a phone line just for your business. If you do use your home line, be sure to have a professional message. For example: “Hi, you have reached the Jones family and Lisa, Arbonne Independent Consultant...”

A computer is another important asset to your business. Familiarize yourself with the Arbonne website at arbonne.com, especially the Internet Consultant section. It has many business-building benefits, including:

• Arbonne WebStats to track your orders and sales volume

• Arbonne University online training and Arbonne Learn & Burn™ weekly audio training

• The MyArbonne.com Website Program — available only to those at Consultant rank or above. In addition to selling products and sponsoring online, you’ll get an email account.

Organize Your Arbonne Home-based Business

• Arbonne offers a variety of Business Aids to help keep your business on track.

• Set aside an area for assembling product orders for distribution. Everyone organizes differently — just be sure you can locate everything you need, when you need it. Having a separate and organized area to manage your business will keep your business on track! Ask your Sponsor and upline leaders for helpful hints about setting up an office at home.

**Important Facts About the Arbonne Opportunity**

To become an Arbonne Independent Consultant, the only financial requirement is a registration fee. Arbonne recognizes the need for Arbonne Independent Consultants to purchase products for demonstration purposes when launching an Arbonne business; however, "inventory loading" is strictly prohibited and against Arbonne policies. Inventory loading is the practice of purchasing large product orders and acquiring large amounts of inventory that an Arbonne Independent Consultant is unlikely to be able to sell or use within a reasonable time period. Each Arbonne Independent Consultant should work with his or her sponsor or upline to develop an appropriate plan of action for the use of demonstration products.

Arbonne International, LLC is a member of the Direct Selling Association. The idea to provide skin care products unparalleled in quality and effectiveness developed in Switzerland in 1975, when one man, Petter Mørck, together with a group of chemists, biologists and herbalists, fulfilled his vision and founded Arbonne. Arbonne’s skin care products, based on botanical principles, became a reality in the United States in 1980 and are now shared throughout the world through Arbonne’s network of Independent Consultants. Building on these same founding principles, Arbonne’s product line has since grown to include both inner and outer health and beauty products that are unparalleled in quality, safety, value, benefits and results!

Arbonne offers its Independent Consultants the opportunity to build a profitable Arbonne business. The success or failure of each Arbonne Independent Consultant, like any other business, depends on each Arbonne Independent Consultant’s own skills and personal effort. Owning your own independent Arbonne business requires hard work, dedication, skill and the ability to be self-motivated. Your success as an Arbonne Independent Consultant depends on how well you exercise these qualities — and while Arbonne does not guarantee your success, it can be achieved!

To ensure prospective Arbonne Independent Consultants are informed of the annual financial success rates achieved by all Arbonne Independent Consultants, and not just the highly compensated, Arbonne posts its annual Independent Consultant Compensation Summary (ICCS) at arbonne.com. The ICCS can also be ordered by calling 1.800.ARBONNE.

While owning your own business presents the opportunity for business-related tax deductions under proper circumstances, you should consult with a tax professional to determine which, if any, deductions your business may qualify for.
